Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative explained that Artieri does not teach packetization as disclosed in the present invention. The Examiner suggested adding a limitation to the claim to more clearly define what "selecting a packetization scheme" entails. Applicant's representative proposed adding a limitation that a data packet contains data from a plurality of memory pages. The Examiner agreed that this proposed amendment would overcome the Artieri reference. Upon receipt of the amendments, the Examiner will perform an updated search.
